

Indoor Arena Bristol, UK

Project Period: Nov 2014 – Feb 2015
Capacity: 8.400 – 16.500
Construction Costs: 95 Mio. €
Client: City of Bristol
Architect: vision4venue

Project description:

The multipurpose indoor arena was designed to achieve international standards for a modern multifunctional event and sport arena. It includes various spaces for VIP and business areas including 24 to 42 VIP boxes, conference areas and about 570 business seats. The arena is designed to host concerts, shows, sports and entertainment events.

vision4venue – Part of the Project:

The team of vision4venue was responsible for the overall planning of the project as a participant of a design and built competition.
